

City of Benton

Floodplain Development Permit Application

This is an application packet for a Floodplain Development Permit. Certain sections are to be completed by the Applicant, and certain sections are to be completed by the local Floodplain Administrator (FPA).

The National Flood Insurance Program (NFIP) provides flood insurance to individuals at much lower premiums than could otherwise be purchased through private insurers, and makes certain federal monies available to local communities. In order for citizens to be eligible for the national flood insurance rates, or for communities to receive certain kinds of federal monies, the community must agree to meet minimum floodplain standards. This application packet is a tool to ensure that the minimum standards are met.

In a participating NFIP community, flood insurance policies can be purchased from any local insurance agent at the national rate. Even though the policy may be issued as if it were coming from the insurance company you deal with, it is actually a Federal NFIP policy printed on the insurance agency's letterhead. The rates are determined by the flood risk zone in which you live and by the elevation of the lowest floor of your home, not by the insurance company, and should be the same regardless of which agent or agency sells you the insurance.

You may buy flood insurance for your own peace of mind, you may be required to buy it before a lending institution will make or refinance a loan, or you may not be buying flood insurance at all. Whatever the case, if the property which you propose to develop is located within a "Special Flood Hazard Area" on a flood map issued by the Federal Emergency Management Agency (FEMA), you **MUST** obtain a Floodplain Development Permit prior to beginning the project. This is a requirement of the local Flood Damage Prevention Ordinance of your community, and there are penalties for failing to do so.

Floodplain Development Permits are **ONLY** required for developments in areas designated as "Special Flood Hazard Areas" of FEMA-issued flood maps. Flood maps can be reviewed at the office of your local FPA, or online at the FEMA website (www.FEMA.gov).

If you are proposing a development of any kind (constructing a new building, adding on to an existing building, clearing land, placing fill, grading land, mining, dredging, drilling, etc...) in a floodplain, you **MUST** submit Section I of this application for a Floodplain Development Permit to your local FPA. Depending upon the type of development you are proposing, additional forms **may** be required. For example, all new buildings in a Special Flood Hazard Area require an Elevation Certificate to document that the lowest floor of the building is elevated to a certain height relative to the anticipated flood crest of the "base flood" event. The Elevation Certificate and other forms are provided in Section III of this application packet, ***but should only be completed if they are required by the FPA for the proposed development.***

Typically, the Applicant completes Section I of this packet and submits the information to the local FPA. The FPA reviews the submission and determines whether or not additional information is needed. If it is, the FPA will request the additional information from the Applicant. Once all required materials have been submitted, the FPA will make a permitting decision and either issue or deny the requested Floodplain Development Permit. (Denied permits may be appealed per the provisions of the local Flood Damage Prevention Ordinance.)

The Applicant should understand that a Floodplain development Permit is only a permit to complete the proposed development. It is a permit to, for example, build a house, construct a baseball field, install a drainage ditch or septic system or grade a parcel of land. Before the house can actually be occupied, or the developed land used, a Compliance Certificate must be issued by the local FPA. The FPA will perform an inspection after the project is completed, or perhaps several inspections throughout the progress of the project, to make sure that the development is compliant with the requirements of the local Flood Damage Prevention Ordinance. Once the Compliance Certificate has been issued, the process has been completed.

INSTRUCTIONS FOR COMPLETION

SECTION I

General Information

Self-explanatory. Note the last two items under this heading.

Owner Information

List the contact information for the owner(s) of the property where development is proposed. All owners of the property must sign the application.

Applicant Information

If you are applying for this development permit, but are not the owner of the property, list your contact information here. If you are the property owner, leave this section blank.

Project Information

Check the box(es) beside the type of development that is being proposed. Note that some types of activity require the estimated cost of the proposed project to be disclosed so the Floodplain Administrator (FPA) can determine whether or not the improvement is a "substantial improvement."

Signature

Print your name, sign your name, and date the application.

SECTION II

Floodplain Information

The FPA will determine – for the sole purpose of administering the local Flood Damage Prevention Ordinance – the position of the proposed development relative to community floodplains and floodways. This determination is not binding at any lending institution or with any insurance agency, but is used to determine whether or not a Floodplain Development Permit and/or any other forms are required prior to commencing the proposed project.

Section II requires a map and panel number(s), a listing of the flood source for the proposed development, and contains a checklist of additional documents required for the FPA to make an informed permitting decision.

If any of the additional documentation is required, the FPA is to notify the applicant, allow a reasonable length of time for submission of the documents, and then review all submissions to determine whether or not the permit will be issued.

SECTION III

Forms

Templates for forms that may be required are provided in this Section.

SECTION IV

Permit Determination

The FPA will indicate whether or not the proposed development is conformant with the requirements of the local Flood Damage prevention ordinance, and whether or not the requested permit is issued. If the decision is to NOT issue the permit, the FPA will provide an explanation of the perceived deficiencies to the Applicant.

SECTION V

Certificate of Compliance

The FPA will indicate the "As-Built" lowest floor elevation for structural developments, list any inspections that have been performed, and issue the Certificate of Compliance to the Applicant if appropriate.

FLOODPLAIN DEVELOPMENT PERMIT
APPLICATION for CITY OF BENTON, ARKANSAS

OFFICE USE ONLY	
Date Received :	_____
File Number :	FDP20 <u> </u> -D00 <u> </u>

PROJECT LOCATION - _____ (Parcel)

SECTION I : (To be read and completed by the Applicant)

GENERAL INFORMATION

1. No work of any kind may begin in a floodplain until a floodplain development permit is issued.
2. The permit may be revoked if any false statements are made in this application.
3. If revoked, all work must cease until a permit is re-issued.
4. The development may not be used or occupied until a Certificate of Compliance is issued.
5. The permit will expire if no work is commenced within 6 months of the date of issue.
6. The permit will not be issued until any other necessary local, state or federal permits have been obtained.
7. By signing and submitting this application, the Applicant gives consent to the Local Floodplain Administrator or his/her representative to make reasonable inspections prior to the issuance of a Certificate of Compliance.
8. By signing and submitting this application, the Applicant certifies that all statements contained in SECTION I of the application, and in any additional attachments submitted by the Applicant, are true and accurate.

OWNER INFORMATION

Property owner(s) : _____ Telephone Number _____ . Fax Number : _____	Mailing Address : _____ _____ e-mail Address : _____ _____

PROJECT INFORMATION

Project _____ Address _____ _____	Lot _____ Block _____ Subdivision _____ Legal Description <i>(attach to this document)</i> _____
---	--

A. Structural Development *(Please check all that apply.)*

Type of Structure

- Residential (1 to 4 Families)
- Residential (More than 4 Families)
- Non-Residential
 - Elevated
 - Floodproofed
- Combined Use (Residential and Commercial)
- Manufactured (mobile) Home
 - Located within a Manufactured Home Park
 - Located outside of a Manufactured Home Park

Type of Structural Activity

- New Structure
- Addition to Existing Structure²
- Alteration of Existing Structure²
- Relocation of Existing Structure²
- Demolition of Existing Structure
- Replacement of Existing Structure

² Estimated Cost of Project: _____

B. Other Development Activities

- Excavation (not related to a Structural Development listed in Part A.)
- Clearing
- Placement of fill material
- Grading
- Mining
- Drilling
- Dredging
- Watercourse alteration
- Drainage improvement (including culvert work)
- Individual Water or Sewer system
- Roadway or bridge construction
- Other development not listed above (specify) _____

SIGNATURE

I certify that to the best of my knowledge the information contained in this application is true and accurate.

SECTION II : (To be completed by the Floodplain Administrator)**FLOODPLAIN INFORMATION**

1. The proposed development is located on FIRM Panel Number _____, dated _____.
2. The proposed development
 - is NOT located in a Special Flood Hazard Area (SFHA). **No development permit is required.**
 - is PARTIALLY located in a SFHA, but the structure is not. **No development permit is required.**
 - IS located in a SFHA.
 The FIRM zone designation is _____.
 The Base Flood Elevation (BFE) at the site is _____ ft. NGVD (Mean Sea
A development permit is required.
For Residential Structures, an Elevation Certificate, completed and signed by a Professional Land Surveyor³ is required before a development permit will be issued.
For non-Residential Structures, an Elevation Certificate and/or a Floodproofing Certificate completed and signed by a Professional Engineer³ is required before any development permit will be issued.
 - IS located in a SFHA.
 The FIRM zone designation is _____.
 The BFE at the site is undetermined.
A development permit is required.
For Residential Structures, an Elevation Certificate, signed by a Professional Land Surveyor³ is required before a development permit will be issued.
For non-Residential Structures, an Elevation Certificate and/or a Floodproofing Certificate completed and signed by a Professional Engineer³ is required before any development permit will be issued.
 - is located in a regulatory Floodway, on FBFM or FIRM Panel _____, dated _____.
A development permit is required.
A No-Rise Certificate completed and signed by a licensed Arkansas Professional Engineer³ must be submitted before a development permit will be issued.
3. List the main source(s) of flooding for this development: _____
4. The following documents must be submitted before a determination can be made on the issuance\denial of a development permit for the proposed project (*check all that apply*):
 - A map which clearly shows the location of the proposed development.
 - An Elevation Certificate, completed and signed by a Professional Land Surveyor.³
 - A Floodproofing Certificate, completed and signed by a licensed Arkansas Professional Engineer.³
 - A No-Rise Certificate, completed and signed by a licensed Arkansas Professional Engineer.³
 - A determination of the Base Flood Elevation (for developments over 50 lots or 5 acres in zone A.)
 - Copy of Wetlands Permit and/or other required local, state or federal permits.

³ As designated by the Arkansas State Board of Registration for Professional Engineers and Land Surveyors.

SECTION III : (Forms which may be required by the Floodplain Administrator)**ELEVATION CERTIFICATE**

Attached, pages 5 – 6. *Submit via email only if required to do so by the Floodplain Administrator.*

FLOODPROOFING CERTIFICATE

Attached, page 7. *Submit via email only if required to do so by the Floodplain Administrator.*

NO RISE CERTIFICATE

Attached, page 8. *Submit via email only if required to do so by the Floodplain Administrator.*

AS BUILT SURVEY

Attached, page 9. *Submit via email only if required to do so by the Floodplain Administrator.*

An “As-Built” Survey prepared by an Arkansas Professional Surveyor or Arkansas Professional Engineer will be required for this project. The Survey shall accurately show the ground elevations prior to commencement of the fill and surface elevation as of the date of the survey.

If any fill is to be placed within the floodplain of Hurricane Creek or any of its’ tributaries above or below the Dam, or within any portion of the floodplain within property around Hurricane Lake, then a Floodplain Development Permit is required along with a “No-Rise” and Elevation Certificate.

No fill or structure can be placed in a Floodway. A hydraulic analyses is required along with a “No-Rise” Certificate, CLOMR-F and accompanying Elevation Certificate and “As’Built” survey. The Plat/As-Built Survey must reflect existing and proposed contours and BFE, the location area of the proposed fill, and structure(s) shall. These documents must accompany the Floodplain Development Permit application.

ELEVATION CERTIFICATE

Important: Read the instructions on pages 1-8.

SECTION A - PROPERTY INFORMATION			For Insurance Company Use:
A1. Building Owner's Name			Policy Number
A2. Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No.			Company NAIC Number
City	State	ZIP Code	
A3. Property Description (Lot and Block Numbers, Tax Parcel Number, Legal Description, etc.)			
A4. Building Use (e.g., Residential, Non-Residential, Addition, Accessory, etc.) _____			
A5. Latitude/Longitude: Lat. _____ Long. _____		Horizontal Datum: <input type="checkbox"/> NAD 1927 <input type="checkbox"/> NAD 1983	
A6. Attach at least 2 photographs of the building if the Certificate is being used to obtain flood insurance.			
A7. Building Diagram Number _____			
A8. For a building with a crawl space or enclosure(s), provide		A9. For a building with an attached garage, provide:	
a) Square footage of crawl space or enclosure(s) _____ sq ft		a) Square footage of attached garage _____ sq ft	
b) No. of permanent flood openings in the crawl space or enclosure(s) walls within 1.0 foot above adjacent grade _____		b) No. of permanent flood openings in the attached garage walls within 1.0 foot above adjacent grade _____	
c) Total net area of flood openings in A8.b _____ sq in		c) Total net area of flood openings in A9.b _____ sq in	

SECTION B - FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

B1. NFIP Community Name & Community Number City of Benton 050078		B2. County Name Faulkner		B3. State Arkansas	
B4. Map/Panel Number	B5. Suffix	B6. FIRM Index Date	B7. FIRM Panel Effective/Revised Date	B8. Flood Zone(s)	B9. Base Flood Elevation(s) (Zone AO, use base flood depth)

- B10. Indicate the source of the Base Flood Elevation (BFE) data or base flood depth entered in Item B9.
 FIS Profile FIRM Community Determined Other (Describe) _____
- B11. Indicate elevation datum used for BFE in Item B9: NGVD 1929 NAVD 1988 Other (Describe) _____
- B12. Is the building located in a Coastal Barrier Resources System (CBRS) area or Otherwise Protected Area (OPA)? Yes No
 Designation Date _____ CBRS OPA

SECTION C - BUILDING ELEVATION INFORMATION (SURVEY REQUIRED)

- C1. Building elevations are based on: Construction Drawings* Building Under Construction* Finished Construction
 *A new Elevation Certificate will be required when construction of the building is complete.
- C2. Elevations – Zones A1-A30, AE, AH, A (with BFE), VE, V1-V30, V (with BFE), AR, AR/A, AR/AE, AR/A1-A30, AR/AH, AR/AO. Complete Items C2.a-g below according to the building diagram specified in Item A7.

Benchmark Utilized _____ Vertical Datum _____
 Conversion/Comments _____

Check the measurement used.

- a) Top of bottom floor (including basement, crawl space, or enclosure floor) _____ feet meters (Puerto Rico only)
- b) Top of the next higher floor _____ feet meters (Puerto Rico only)
- c) Bottom of the lowest horizontal structural member (V Zones only) _____ feet meters (Puerto Rico only)
- d) Attached garage (top of slab) _____ feet meters (Puerto Rico only)
- e) Lowest elevation of machinery or equipment servicing the building (Describe type of equipment in Comments) _____ feet meters (Puerto Rico only)
- f) Lowest adjacent (finished) grade (LAG) _____ feet meters (Puerto Rico only)
- g) Highest adjacent (finished) grade (HAG) _____ feet meters (Puerto Rico only)

SECTION D - SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION

This certification is to be signed and sealed by a land surveyor, engineer, or architect authorized by law to certify elevation information. *I certify that the information on this Certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.*

Certifier's Name	License Number
Title	Company Name
Address	City State ZIP Code
Signature	Date Telephone

IMPORTANT: In these spaces, copy the corresponding information from Section A.	For Insurance Company Use:
Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No.	Policy Number
City State ZIP Code	Company NAIC Number

SECTION D - SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION (CONTINUED)

Copy both sides of this Elevation Certificate for (1) community official, (2) insurance agent/company, and (3) building owner.

Comments

Signature _____ Date _____ Check here if attachments

SECTION E - BUILDING ELEVATION INFORMATION (SURVEY NOT REQUIRED) FOR ZONE AO AND ZONE A (WITHOUT BFE)

For Zones AO and A (without BFE), complete Items E1-E5. If the Certificate is intended to support a LOMA or LOMR-F request, complete Sections A, B, and C. For Items E1-E4, use natural grade, if available. Check the measurement used. In Puerto Rico only, enter meters.

- E1. Provide elevation information for the following and check the appropriate boxes to show whether the elevation is above or below the highest adjacent grade (HAG) and the lowest adjacent grade (LAG).
 a) Top of bottom floor (including basement, crawl space, or enclosure) is _____. feet meters above or below the HAG.
 b) Top of bottom floor (including basement, crawl space, or enclosure) is _____. feet meters above or below the LAG.
- E2. For Building Diagrams 6-8 with permanent flood openings provided in Section A Items 8 and/or 9 (see page 8 of Instructions), the next higher floor (elevation C2.b in the diagrams) of the building is _____. feet meters above or below the HAG.
- E3. Attached garage (top of slab) is _____. feet meters above or below the HAG.
- E4. Top of platform of machinery and/or equipment servicing the building is _____. feet meters above or below the HAG.
- E5. Zone AO only: If no flood depth number is available, is the top of the bottom floor elevated in accordance with the community's floodplain management ordinance?
 Yes No Unknown. The local official must certify this information in Section G.

SECTION F - PROPERTY OWNER (OR OWNER'S REPRESENTATIVE) CERTIFICATION

The property owner or owner's authorized representative who completes Sections A, B, and E for Zone A (without a FEMA-issued or community-issued BFE) or Zone AO must sign here. *The statements in Sections A, B, and E are correct to the best of my knowledge.*

Property Owner's or Owner's Authorized Representative's Name _____

Address _____ City _____ State _____ ZIP Code _____

Signature _____ Date _____ Telephone _____

Comments _____

Check here if attachments

SECTION G - COMMUNITY INFORMATION (OPTIONAL)

The local official who is authorized by law or ordinance to administer the community's floodplain management ordinance can complete Sections A, B, C (or E), and G of this Elevation Certificate. Complete the applicable item(s) and sign below. Check the measurement used in Items G8. and G9.

- G1. The information in Section C was taken from other documentation that has been signed and sealed by a licensed surveyor, engineer, or architect who is authorized by law to certify elevation information. (Indicate the source and date of the elevation data in the Comments area below.)
- G2. A community official completed Section E for a building located in Zone A (without a FEMA-issued or community-issued BFE) or Zone AO.
- G3. The following information (Items G4.-G9.) is provided for community floodplain management purposes.

G4. Permit Number	G5. Date Permit Issued	G6. Date Certificate Of Compliance/Occupancy Issued
-------------------	------------------------	---

- G7. This permit has been issued for: New Construction Substantial Improvement
- G8. Elevation of as-built lowest floor (including basement) of the building: _____. feet meters (PR) Datum _____
- G9. BFE or (in Zone AO) depth of flooding at the building site: _____. feet meters (PR) Datum _____

Local Official's Name _____ Title _____

Community Name _____ Telephone _____

Signature _____ Date _____

Building Photographs

See Instructions for Item A6.

	For Insurance Company Use:
Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No.	Policy Number
City State ZIP Code	Company NAIC Number

If using the Elevation Certificate to obtain NFIP flood insurance, affix at least two building photographs below according to the instructions for Item A6. Identify all photographs with: date taken; "Front View" and "Rear View"; and, if required, "Right Side View" and "Left Side View." If submitting more photographs than will fit on this page, use the Continuation Page, following.

FEDERAL EMERGENCY MANAGEMENT AGENCY
NATIONAL FLOOD INSURANCE PROGRAM
FLOODPROOFING CERTIFICATE
FOR NON-RESIDENTIAL STRUCTURES

The floodproofing of non-residential buildings may be permitted as an alternative to elevating to or above the Base Flood Elevation; however, a floodproofing design certification is required. This form is to be used for that certification. Floodproofing of a residential building does not alter a community's floodplain management elevation requirements or affect the insurance rating unless the community has been issued an exception by FEMA to allow floodproofed residential basements. The permitting of a floodproofed residential basement requires a separate certification specifying That the design complies with the local floodplain management ordinance.

BUILDING OWNER'S NAME

STREET ADDRESS (Including Apt., Unit, Suite and/or Bldg number) OR P.O. ROUTE AND BOX NUMBER

OTHER DESCRIPTION (lot and Block Numbers, etc)

CITY

STATE

ZIP CODE

FOR INSURANCE COMPANY USE

COMPANY NAIC NUMBER

SECTION I – FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

Provide the following from the proper FIRM:

COMMUNITY NUMBER	PANEL NUMBER	SUFFIX	DATE OF FIRM INDEX	FIRM ZONE	BASE FLOOD ELEVATION (In AO Zones, Use Depth)

SECTION II – FLOODPROOFING INFORMATION (By a Registered Professional Engineer or Architect)

Floodproofing Design Elevation Information:

Building is floodproofed to an elevation of _____ Feet NGVD. (Elevation datum used must be the same as that on the FIRM)

Height of floodproofing on the building above the lowest adjacent grade is _____ feet.

(NOTE: for insurance rating purposes, the building's floodproofed design elevation must be at least one foot above the Base Flood Elevation to receive rating credit. If the building is floodproofed only to the Base Flood Elevation, then the building's insurance rating will result in a higher premium.)

SECTION III – CERTIFICATION (By a Registered Professional Engineer or Architect)

Non-Residential Floodproofed Construction Certification:

I certify that, based upon development and/or review of structural design, specifications, and plans for construction, the design and methods of construction are in accordance with accepted standards of practice for meeting the following provisions:

The structure, together with attendant utilities and sanitary facilities, is watertight to the floodproofed design elevation indicated above, with walls that are substantially impermeable to the passage of water.

All structural components are capable of resisting hydrostatic and hydrodynamic flood forces, including the effects of buoyancy, and anticipated debris impact forces.

I certify that the information on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

FLOODPLAIN DEVELOPMENT PERMIT
City of Benton, Arkansas
PROJECT LOCATION- [REDACTED]

OFFICE USE ONLY	
Date Issued:	_____
File Number :	FDP20 [REDACTED]-D00 [REDACTED]

(Parcel)

SECTION IV : (To be completed by the Floodplain Administrator)

PERMIT DETERMINATION

I have determined that the proposed development

- IS
- IS NOT (non-conformances to be described in a separate document)

in conformance with local Flood Damage Prevention Ordinance Number Ordinance 17 of 2012 ,
Dated 14 May 2012 .

The Floodplain Development Permit

- IS
- IS NOT (reasons for denial to be described in a separate document)

issued, subject to any conditions attached to and made part of this permit.

SIGNATURE
Danny Ketchum, CFM
Flood Plain Administrator

DATE

The applicant is reminded that this document is a development permit only. An inspection must be performed and a Compliance Certificate must be issued before the development can be occupied or used.

PERMIT CONDITIONS

Work must be started within 6 months. This permit shall expire one year from the date of issuance, ([REDACTED]), unless specific written approval is granted for an extension of the permit. Any request for an extension of time shall be accompanied by an updated As-Built Survey showing the extent of fill placed to date.

You may proceed with placement of fill. All BMPs and measures taken to control erosion and sediment shall be maintained at all times until substantial vegetative growth has been established and the need for the measures are no longer necessary.

You must provide an Elevation Certificate to confirm the building site is above BFE, after placement of fill, and provide a copy of your requested LOMR-F to this office before a building permit will be issued. Once these are received, you will be issued a Certificate of Compliance.

An As Built Survey contour of the property and Final Elevation Certificate and a copy of the approved LOMR-F will be required prior to issuance of Certificate of Occupancy.

SECTION V : CERTIFICATE OF COMPLIANCE

“AS-BUILT” ELEVATION (to be completed by the applicant after construction)

The following information must be provided for structures that are part of this application. This section must be completed by a Professional Land Surveyor or a Professional Engineer (or attach a certification to this application).

- (1) The Actual (“As-Built”) elevation of the top of the lowest floor, including the basement, is _____ Feet above MSL (vertical datum: _____).
- (2) The Actual (“As-Built”) elevation of floodproofing protection is _____ Feet above MSL (vertical datum: _____).

COMPLIANCE ACTION (to be completed by the Local Floodplain Administrator)

The Floodplain Administrator will complete this section as applicable based on inspection of the development to ensure compliance with the community’s local flood damage prevention ordinance.

Inspections:	Date: _____	By: _____	Deficiencies?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	Date: _____	By: _____	Deficiencies?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
