

Fence Permit Supplemental

Regulations:

1. The attached Application should be completed and submitted with the Building permit.
2. Commercial fences will be included in signed and stamped drawings submitted with Building permit plans and all details and dimensions and height requirements apply as stated below. A fence permit must be completed and submitted with request for a building permit. If a commercial fence is to be added or repaired, then a permit application must be requested and all information provided.
3. Fences must be located on private property and have consent of owner.
4. Fencing in front yard cannot exceed 3 feet in height.
5. Fences must be located at least 5 feet from any street or public right of way.
6. No fence may be located within the Clear View Zone of a street intersection. See Example 1.
7. Fences are not to be located within utility easements, however, if they exist or are approved to be placed within an easement, then a gate may be required on each end equal to the width of the easement. Any damage to the fence or gates caused by work on utilities within the easement will be the responsibility of the property owner. See Example 2.
8. Fences may not be located within a platted drainage easement. See Example 2.
9. Fences that abut on back or side lot lines cannot impede natural drainage between lots or across the back of lot lines. No grading or placement of fill, fences, or barriers of any kind can be placed or installed to prohibit drainage or redirect drainage from occurring within 5 feet of any property line. Fencing must allow 3-4 inches clearance to the ground where critical area drainage occurs along property lines.
10. Fences cannot exceed 6 feet in height unless approved by exception.
11. Finished surfaces of fences must face outward from the property where they front public right of way.
12. Fences used to enclose pools and spas must be a minimum of 4 feet in height and no more than 2 inches clearance from the ground to the bottom of the fence.
13. Replacement or repair of fences requires a permit and drawing to show extent of work and locations on property. No fee will be required.

Plot Plan or Site Plan and detail Requirements:

A Plot Plan or Site Plan must be submitted with the Application and include the following (Commercial developments shall provide these items within their construction plans):

- Location of all existing structures
- Location of all property lines and setbacks
- Location of all utilities and utility easements
- Location of all drainage ways and drainage easements
- Location of any existing fences currently on the property or is present on adjacent property
- Portions of existing fencing to be replaced
- Location of new fencing
- Location of all gates
- Provide all dimensions between fence and structures and distance from property lines and easements or right of ways.
